DETAILED ACTION

Prelim. Amdt./Amendment

1. Receipt is acknowledged of the Preliminary Amendment filed on June 23, 2006.

Information Disclosure Statement

2. The information disclosure statement filed June 23, 2006 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 11-30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The phrase "generating an image of a surface of a component which emits light" in claim 10 is unclear. It is vague and indefinite to the examiner what the applicant is

intending to describe of that the system, that is, what images is generated using the a surface of the component and which part is emitting lights, surface of the component is emitting light or is there a light source to emit the light? Furthermore, if the surface of a component is emitting lights, then what image is captured that need to be processed?

Please specify the what are "the additional imaging component" referring to.

Clarification and correction is required.

Additional Remarks

5. The lack of an art rejection with this Office action is not an indication of allowable subject matter (i.e., even though the claim 10 is rewritten or amended to overcome the rejection under 35 U.S.C. 112 as discussed above). The disclosure/claimed language is such that it is impractical to conduct a reasonable search of the prior art by the Examiner.
